

NC1701 EVALUATION KIT

THANKS FOR YOUR INTEREST IN THE NC1701 - ENHANCED VEHICLE COMMUNICATIONS CONTROLLER

Our evaluation kit will help you understand the full potential of NC1701 and how it could benefit your business.

We provide everything you need to plug into vehicles, use our MECH5 cloud platform, and download Configuration Files to use offline with the kit and read any selected telematic parameters.

THE KIT INCLUDES:

- NC1701 evaluation board
- OBD vehicle connection cable
- MECH5 VCI including 12 months subscription to MECH5 cloud
- Evaluation Board User Guide
- Evaluation Software - Windows, Android, iOS
- MECH5 account with 90-day access to Telematic Parameters Services

£795.00
